**I. STRATEGIC/OPERATIONAL**

1. Operational

**II. RECOMMENDATION**

2. To take note

**III. MAJORITY NEEDED**

3. n.a.

**IV. CONTEXT**

4. Information to the BFC

**V. RECOMMENDATION FOR PUBLICATION**

5. Yes.

As its previous versions, this document has been compiled with the support of the national offices of the contracting states. Following the decision taken in 2015, subsequent editions of the document have been published. It is recommended to publish the current version as well.

**VI. ANALYSIS**

In the different phases of the patent procedures, the development is expressed in percentage change compared to the previous year. Where appropriate, numbers have been rounded.

**A. KEY RESULTS**

The key results for 2021 are:

- The number of applications at the EPO increased by 4.6% to ca 188 780.
- About 108 800 European patents (-19%) were published.
- National applications in the member states decreased to 138 955 (-4%).
- 60% of all applications filed in the EPC area (EPO and national offices) originated from the member states.
- National patents granted in the member states increased by 7.3% to 73 435.

**B. EUROPEAN PATENT APPLICATIONS FILED**

See Annex 1.A

European patent applications are either direct European applications or PCT international applications entering the regional phase during the reporting period.

Based on the information available in June 2022, 188 780 applications were filed for European patents in 2021. This was 4.6% above the latest 2020 figure.

Less than half of the applications (44.4%, -0.8%pts) originated from the EPC contracting states. The combined share of the three leading Asian countries slightly increased to 25.2% (+0.6%pts) is comparable to the share of the U.S. (24.7%).

In 2021, EPC residents filed about 128 160 first filings in the EPC area (at EPO, Annex 1.A and at national offices, Annex 2.A). Of these 76% (97 330) were filed at the national office of the applicant's residence, 20% (25 180) were filed at the EPO and 4% (5 650) were filed at another EPC national office.

The first filings made by EPC residents at the EPO accounted for 30% of all the applications filed by EPC residents at the EPO.

## C. GRANT PROCEDURE

See Annex 1.B.a

The grant procedure has been completed for 98% of all applications for a European patent filed up until the end of 2016. For these applications the grant rate was 57%. Of those applications filed during the past five years (since the beginning of 2017) 41.4% of the procedures have been completed (-1.2%pts compared to 2020).

The number of published European patents decreased by 18.6% to 108 798 in 2021 (see Annex 1.C).

As per annex 1.B.d, on average (mean average), a search performed by the EPO was completed in 4.8 months (4.3 in 2020). The examination was completed 23.0 months after the examination request was validly filed with the EPO (23.7 in 2020). The decision by the opposition divisions was notified 19.3 months after the end of the opposition period (15.4 in 2020).

## D. OPPOSITION PROCEDURE

See Annex 1.B.b

The number of patents for which the opposition period expired in 2021 decreased to 129 123 by 6.2% and 2.5% of these patents were eventually opposed (2.4% in 2020). Considering that multiple parties can oppose the same patent, the average number of oppositions filed per opposed patent was 1.25 in 2021 (1.28 in 2020).

As shown in the annexed tables, the opposition rate varies among technologies and according to the country of residence of the patentees.

In 2021, 74% of the granted patents were maintained (32% opposition rejected or 42% patent maintained in amended form) and 26% were revoked by the opposition divisions (35% in 2020).

## **E. PROCEDURES**

See Annex 1.B.c

The number of decisions to refuse a patent for which the appeal period expired in 2021 decreased by 5.4% compared to 2020 to 6 570. Of these decisions to refuse a patent 806 (-6%) were appealed, leading to an ex parte appeal rate of 12% (12% in 2020).

After a drastic reduction in 2020 owing to pandemic, the number of opposition decisions open for appeal increased markedly in 2021. The number of decisions appealed increased and resulted in an inter partes appeal rate of 49% (37% in 2020).

Statistics on the outcome of the appeal procedures are available on the home page of the EPO Boards of Appeal ([epo.org/law-practice/case-law-appeals/annual-report.html](http://epo.org/law-practice/case-law-appeals/annual-report.html)).

## **F. VALIDATION AND MAINTENANCE**

See Annex 1.D

The figures presented in the annexes are based on the data available in the Post Grant Data System of the EPO and reflect the information provided by the national offices of the member states. They represent the situation as at the end of 2021 with respect to the validation and the maintenance of European granted patents in the member states as available in June 2022. A patent is considered as maintained until its abandonment is legally recorded and transmitted to the EPO.

The EP patents validated are maintained on average (median) 10 years. About 18% of the validated rights are maintained up until the expiration of the 20th patent-year.

As a consequence of the increase in granted patents since 2015, the number of those which were validated kept increasing in 2021 . But they represent about 35% of the potential rights granted by the EPO. The number of patents granted by the EPO and still in force in the contracting states at the end of the year decreased by 1% in 2021, after increasing by 19% in 2020. Approximately 6.217 million patent rights granted by the EPO were in force at the end of 2021.

There are substantial differences in validation and patent maintenance rate between the designated member states. For patents filed between 2002 and 2021, the validation rate ranges vary widely.

## **G. NATIONAL PROCEDURE**

See Annex 2

National patent applications are either direct national applications or, for member states where it is possible, PCT international applications entering the national phase during the reporting period.

Based on the data provided by the national offices by July 2022, 138 955 applications for a national patent were filed in the member states in 2021. This represented a slight decrease compared to 2020 (-4%).

About 75% were filed by residents of the respective countries (74% in 2020), and 27% of the foreign applications were filed by residents of other EPC contracting states, accounting for 7% of all applications filed at the national offices. Together 82% of the national patent applications in the EPC states were filed by residents of the EPC states (81% in 2020).

In 2021, overall 94% of the national applications filed by residents of the EPC member states at their respective home office were first filings, as in previous years.

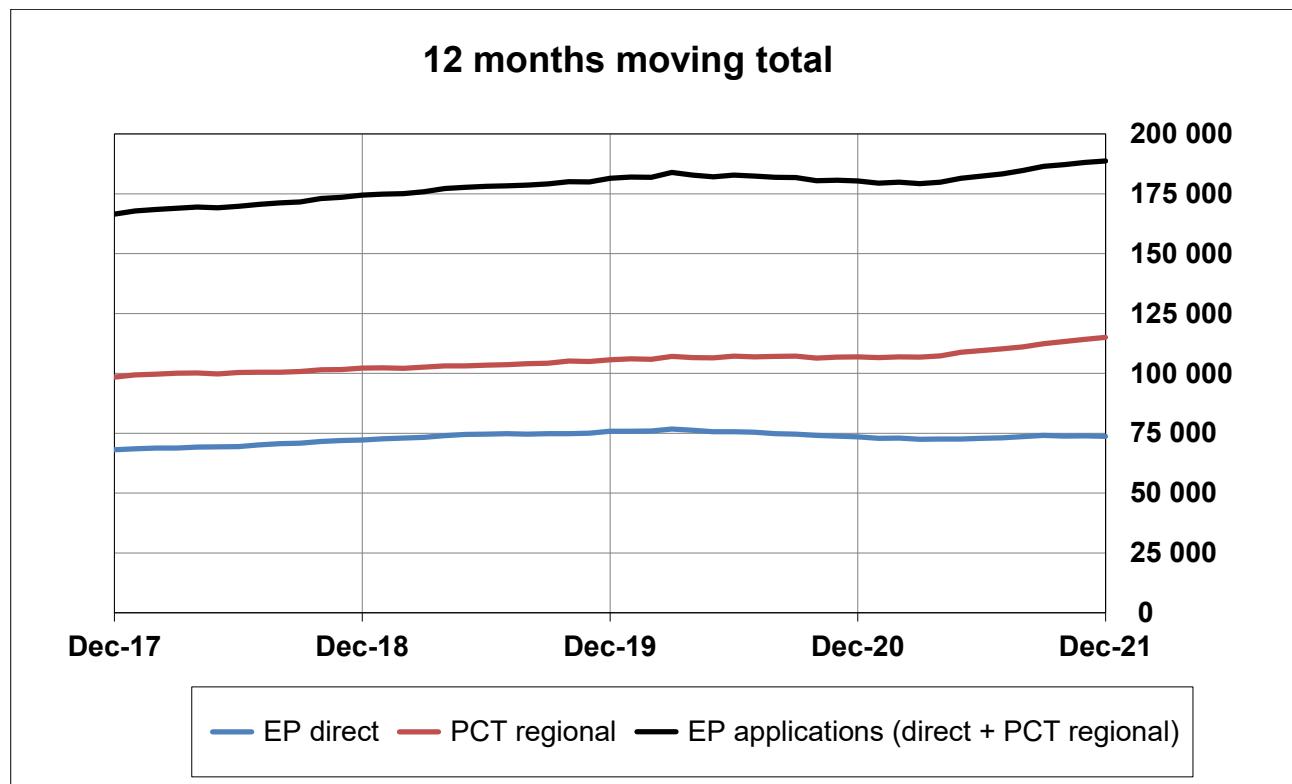

About 155 649 national grant procedures were completed in 2021. Of these, ca 73 435 resulted in a granted patent. This is 7.3% higher than the number of patents granted by the national offices in 2020.

## ANNEX 1        EUROPEAN PATENT PROCEDURES STATISTICS

### A.        EUROPEAN PATENT APPLICATIONS FILED

## Decisions by the opposition divisions and appeals filed in 2021

Type of decision	Total cases	Appealed cases	
Opposition rejected	3 078	1 485	48%
Patent revoked	643	339	53%
Patent amended	998	490	49%
Total	4 719	2 314	49%

### d) Processing times

#### Early Certainty

The statistics on processing times describe the progress towards the Early Certainty objectives for the European patent procedures.

As part of the implementation of the Strategic Plan 2023, the times indicated in the table below are represented as mean average delays in months for the European search, the substantive examination and the opposition procedures. In order to properly reflect the delay of the procedures, the statistics are based on standard cases. Previous year figures (also measured as mean averages) are presented for reference.

The delays are measured:

- European search: from date of receipt at the EPO to end of search
- All searches: from date of receipt at the EPO to date of dispatch of the search report
- Examination: from valid request for examination (all formalities completed) to dispatch of the examiner's intention to grant.
- Opposition: from expiry of the opposition filing period to the date of the opposition decision.

The times are calculated for the applications for which the corresponding stage ended in 2021.

Procedure	Months	<i>Previous year</i>
Search (all searches) <sup>(1)</sup>	4.8	4.3
Examination <sup>(2)</sup>	23.0	23.7
Opposition <sup>(3)</sup>	19.3	15.4

(1) Mean value for standard searches (i.e. excluding non-unity, clarification request or incomplete search).

(2) Mean value calculated from valid examination request to dispatch of examiner's intention to grant for standard examination (i.e. excluding two or more late payment of fees, two or more requests for extension of time limit, or re-scheduling of oral proceedings).

(3) Mean value calculated from expiry of opposition filing period to date of opposition decision for standard opposition cases (i.e. excluding cases with more than one opponent, participation of a legal member or re-scheduling of oral proceedings).

## D. VALIDATION AND MAINTENANCE OF EUROPEAN PATENTS

In the following pages, for each member state, the figures presented in the first table indicate the number of applications filed and designating the country, the number of those which have been granted by the EPO, the number of these grants which have been validated and entered into force in the country, and the number of European patents still in force at the end of 2021. The data cover the filing period 2002-2021 for which patents can still be in force.

As the patent term is 20 years, the figures cover the applications filed between January 2002 and December 2021.

Applications for a European patent are counted in the year of the international filing date. In the case of the Euro-direct applications this corresponds to the filing date at the EPO. In the case of the PCT applications only those that entered the regional phase at the EPO are taken into account and they are counted in the year of the international PCT filing date. As a consequence, the yearly counts for applications filed are different from the count of applications at the EPO as reported in sections A and B of the document.

The statistics reflect the current status of the designations in the EPO granting procedure.

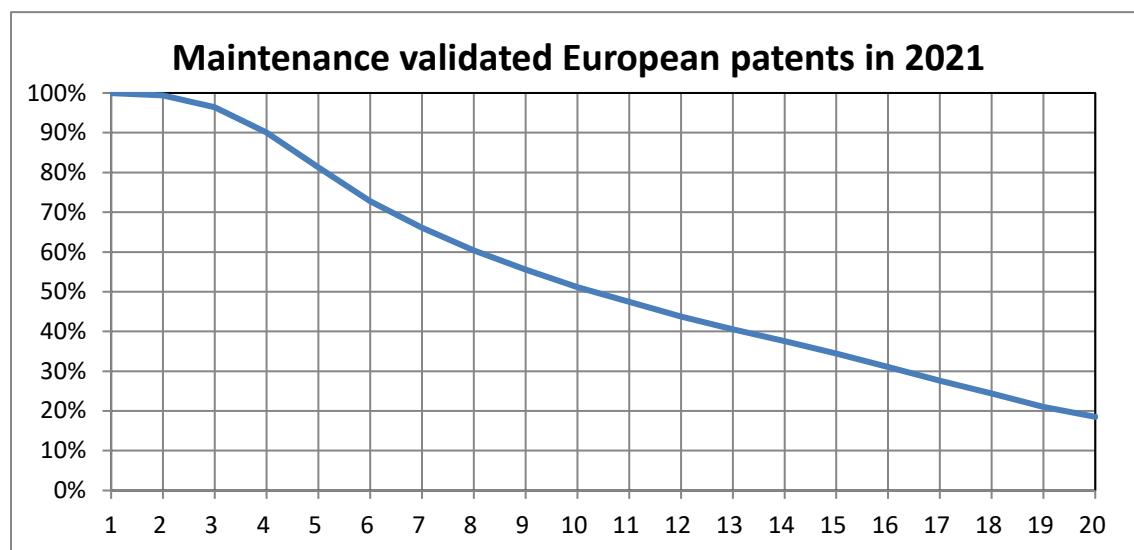

The second table indicate the proportion of granted European patents still in force at the end of each patent year. All data are extracted from the EPO database on the basis of data transmitted by the contracting states offices. A patent is considered as maintained until its abandonment is legally recorded and transmitted to the EPO.

The following table and chart give an overview of the fate of the resulting patent rights granted by the EPO.

Filing year	Applications filed	Granted patents	Validated patents	Patents still in force
Total counts of designated states				
Total filed: 2002 - 2021	91 511 909	37 961 919	12 566 748	6 216 823
Total filed: 2001 - 2020	86 213 530	34 760 938	12 122 865	6 253 426
Growth: <i>status end of 2021 over status end of 2020</i>	6%	9%	4%	-1%

Due to the legal delay for paying the national renewal fees, the number of patents still in force at the end of 2021 is still provisional.

As shown in the chart below, EP patents validated are maintained on average (median) up to 10 years. As previous year, about 18% are maintained up until the expiration of the 20th patent-year (18% in 2020).

## C. WORKING AGREEMENTS EPO-NPO ON SEARCH

As per CA/37/08 rev. 1, the table below shows the latest figures on the numbers and proportions of national applications for which the EPO has conducted search on behalf of the 15 Contracting States (FR, NL, BE, LU, CY, GR, IT, LT, LV, MC, MT, SM, UK, AL, HR), and the number and proportion of those which were subsequently filed as European applications or PCT international applications.

Applications are counted in the year of the subsequent applications. Counts for 2021 are still provisional.

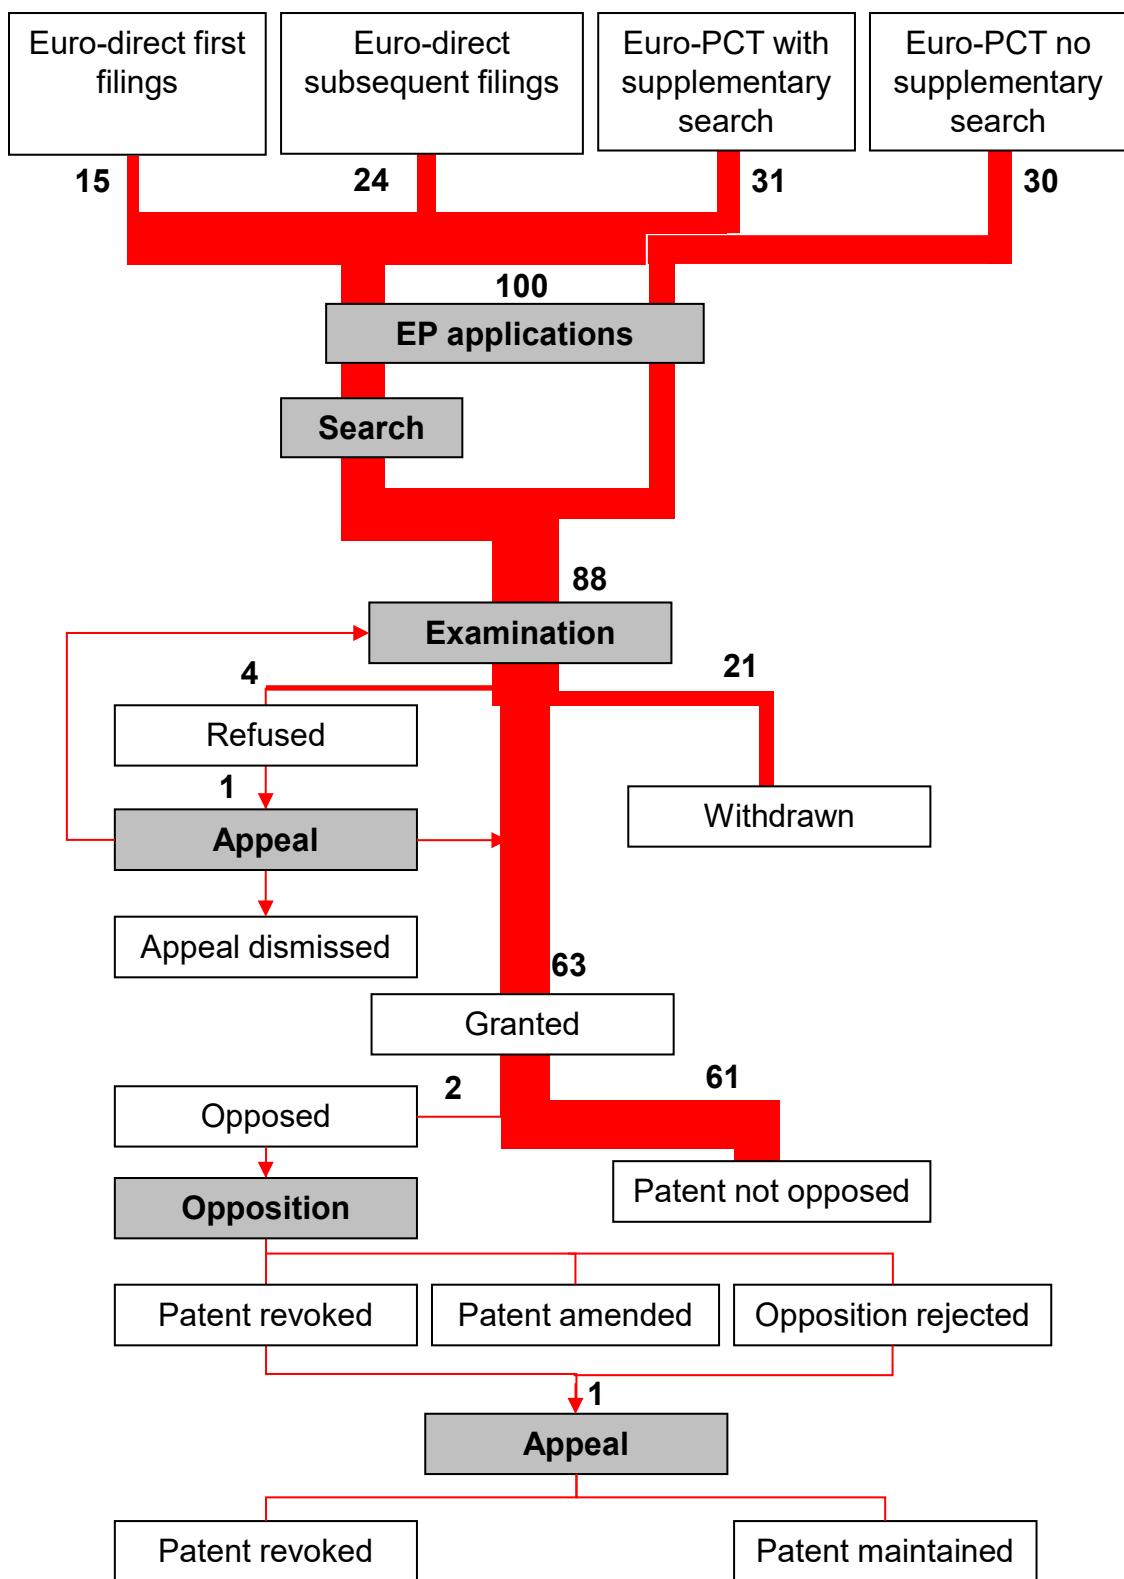

As proposed in CA/51/20, the statistics of the return rates are now presented for one group of the 15 Contracting States having a working agreement in place instead of two groups.

Year	Searched by the EPO	Remained national		Subsequently filed as			
				European	PCT international		
2020	26 577	11 763	44%	4 358	17%	10 456	39%
2021	23 174	10 444	45%	3 537	15%	9 193	40%

## ANNEX 3 THE EUROPEAN PATENT PROCEDURE IN 2021

The figures illustrate the 2021 values of the different parameters.

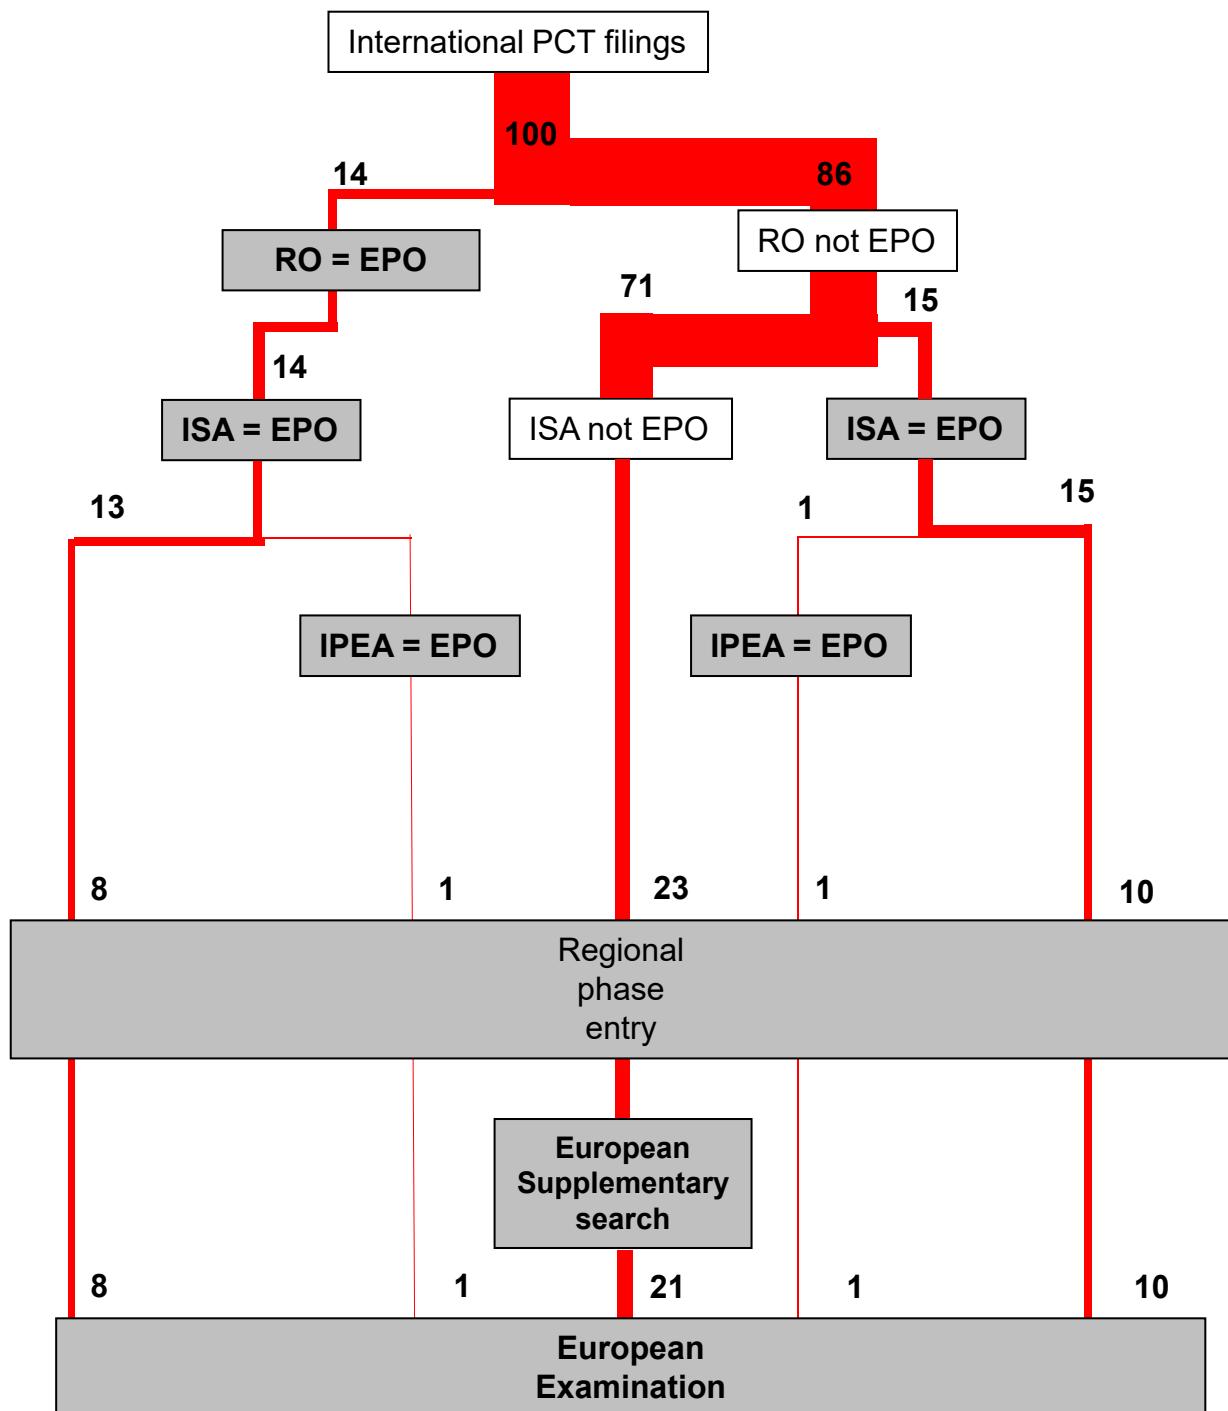

### European grant procedure in 2021

## ANNEX 4 THE PCT INTERNATIONAL PHASE AND THE EPO IN 2021

The figures illustrate the 2021 values of the different parameters.

### PCT International phase and the EPO activities in 2021

RO: Receiving Office

ISA: International Search Authority

IPEA: International Preliminary Examining Authority

## **ANNEX 5        GLOSSARY**

**Amended form:** patent application (description, claims or drawings) has been amended before grant (Article 123 EPC) or during the opposition proceedings (Article 101 EPC).

**Appeal:** *ex parte* appeal, *inter partes* appeal or a PCT protest as well as a legal appeal, a disciplinary appeal (Article 106 EPC).

**Country of origin:** country of residence of the first named applicant.

**Direct European route (application):** patent application filed under Article 75 EPC (also Euro-direct application).

**Designation:** indication of the contracting state(s) in which the protection for the invention is desired (Article 79 EPC).

**EPC:** European Patent Convention (38 contracting states as at 31 December 2020) enables the patent applicant, by means of a single procedure, to obtain a patent in some or all of the contracting states.

**Euro-PCT route:** a way to obtain a European patent by designating the EPO in a PCT application (Article 11 PCT).

**Euro-PCT application – international phase (or Euro-PCT application or PCT international):** a PCT application designating the EPO (Article 153(2) EPC).

**Euro-PCT application – regional phase (or PCT regional):** PCT application entering the European (or regional) phase once the applicant has fulfilled the conditions under Article 22 or 39 PCT, Article 153(3) and (4) and Rule 159 EPC.

**Euro-PCT search (or PCT Chapter I):** search carried out by the EPO acting as International Searching Authority for a Euro-PCT application in the international phase (Article 16 PCT).

**European patent application:** either a direct European application or a PCT international application entering the regional phase during the reporting period.

**European examination:** on written request the EPO shall examine a European patent application (Article 94 EPC).

**European first filings:** a European application filed without claiming the priority of a previous application.

**European search:** search carried out by the EPO on a direct European application or a Euro-PCT application having entered the European phase (Article 92 EPC).

**Ex parte case:** appeal filed against a decision taken by an examining division where only one party is involved.

**Final action:** the last decision taken by the examining division in the examination procedure, either refusing the patent application or indicating the intention to grant a patent (Article 97 EPC).

**First action:** the first communication sent to the applicant in the examination procedure (Article 94(3), Rule 71(3) EPC).

**Inter partes case:** appeal filed against a decision taken by an opposition division where two or more parties are involved.

**International PCT filings:** (see PCT applications)

**International preliminary examination (or PCT Chapter II):** non-binding examination which can be requested for a PCT application (Article 31 PCT).

**International Preliminary Examining Authority (IPEA):** (23 authorities as of 1 July 2022) office with competence to carry out the international preliminary examination for a PCT application. It may be either a national office (AT, AU, BR, CA, CL, CN, EG, ES, FI, IL, IN, JP, KR, PH, RU, SE, SG, TR, UA, US) or an intergovernmental organisation (EPO, Nordic PI, Visegrad PI) (Article 32 PCT, Article 152 EPC).

**International search report with written opinion:** search report drawn up by a PCT International Searching Authority (Article 18 PCT and Article 153(6) EPC).

**International Searching Authority (ISA):** (23 authorities as of 1 July 2022) office with competence to carry out the international search for a PCT application. It may be either a national office (AT, AU, BR, CA, CL, CN, EG, ES, FI, IL, IN, JP, KR, PH, RU, SE, SG, TR, UA, US) or an intergovernmental organisation (EPO, Nordic PI, Visegrad PI ), (Article 16 PCT, Article 152 EPC).

**IPC (classification):** all patent applications are classified in this internationally recognised classification system, which facilitates searches to be carried out on all existing patent documents by technical fields.

**National application:** filed at a national patent office according to a national procedure or a PCT international application entering the national phase during the reporting period.

**Opposition:** under Articles 99 and 100 EPC, within nine months from the publication of the mention of the grant of a European patent in the European Patent Bulletin, any person may give notice to the EPO of opposition to the

European patent granted, invoking lack of patentability, e.g. lack of novelty or inventive step (Articles 52-57 EPC); or lack of sufficiently clear and complete disclosure of invention (Article 83 EPC); or that the granted patent extends beyond the application as filed (Article 123(2) EPC).

**Patent granted:** when the examining division is of the opinion that the application and the invention to which it relates meet the requirements of the EPC, it shall decide to grant the European patent, Article 97(1) EPC. The grant will be effective from the date on which the European Patent Bulletin mentions the grant (Article 97(3) EPC).

**PCT:** Patent Cooperation Treaty, which encompassed 155 contracting states on 1 June 2022, enabling a patent applicant, by means of a single procedure, to file a patent application in some or all of the contracting states.

**PCT application or filing:** international application filed under the PCT (Article 3 PCT).

**PCT international phase:** part of the PCT procedure from filing until the end of the delay to enter national or regional phase (see PCT national phase and Euro-PCT application).

**PCT international search:** search carried out by an International Searching Authority.

**PCT national phase:** PCT application entering the national phase once the applicant has fulfilled the conditions under Article 22 or 39 PCT.

**PCT regional phase:** PCT application entering the European phase at the EPO once the applicant has fulfilled the conditions under Article 22 or 39 PCT.

**PCT route:** one possible way of filing a patent application within any of the PCT contracting states.

**Processing time:** time elapsing between the moments the examiner starts and completes a given phase of the procedure.

**Protest:** appeal filed by an applicant in the PCT procedure if he does not agree with the request to pay an additional fee following a decision on lack of unity of invention taken during either the international search or the international preliminary examination (international phase of the PCT) (Articles 17(3)(a) and 34(3)(a), Rules 40.2 and 68.3 PCT, Rule 158 (3) EPC).

**Publication:** a patent application is published twice during the procedure:

- a European patent application is published as soon as possible after the expiry of a period of eighteen months from the date of filing or, if priority has been claimed, as from the date of priority (Article 93, Rules 67-69 EPC);
- at the same time as the Office publishes the mention of the grant of the European patent, the Office publishes a specification of the European patent containing the description, the claims and any drawings, Articles 98 and 103,

Rule 73 EPC. An international patent application, where the Office is designated, is published under Article 21 PCT and is mentioned in the European Patent Bulletin (Article 153(3)-(6) EPC).

**Refusal/rejection:**

- the examination division will refuse a European patent application if it is of the opinion that such application or the invention to which it relates does not meet the requirements of the EPC, or if the applicant fails to observe a given time limit (Articles 97(2) EPC).
- the Office will reject an opposition or an appeal if it does not fulfil the necessary requirements (Articles 101 and 110 EPC).

**Revocation:** a patent is revoked after an opposition procedure if the subject-matter of the patent application is not patentable or if it does not disclose the invention in a manner sufficiently clear and complete for it to be carried out by a person skilled in the art or if the subject matter goes beyond the content of the application filed. The patent can also be revoked if the patent applicant fails to meet all formal requirements (Article 101(2) EPC).

**Search report:** a report of the results of the search drawn up by the search division if the patent application has been accorded a date of filing and is not deemed to be withdrawn (Article 92 EPC).

**Supplementary European search:** search carried out by the EPO on a Euro-PCT application entering the regional phase for which the ISA was not the EPO (Article 153(7) EPC).

**Technical appeal:** *ex parte* appeal, *inter partes* appeal or a PCT protest.

**Withdrawal:** this is the result of non-compliance to the EPC rules, at any stage of the procedure the applicant does:

- not pay fees in due time
- not file a request for examination within the given time period (Article 94(2) EPC)
- not reply in due time to any invitation within the examination procedure (Article 94(4) EPC).

A patent application can be withdrawn by the applicant at any stage except where a third party proves to the Office that he has initiated proceedings concerning entitlement and then until such time as the Office resumes the proceedings for grant (Rule 14 EPC).
