A44D 2200/00**General types of fasteners**

A44D 2200/10

- Details of construction

A44D 2200/12

- made of two identical elements

A44D 2201/00**Fastening by snap action**

A44D 2201/02

- with both stud and socket members made from one piece

A44D 2201/04

- with an elastic stud member

A44D 2201/06

- with an elastic socket member

A44D 2201/10

- Details of the stud or socket member

A44D 2201/12

- Stud member

A44D 2201/14

- with opening of the fastener by sliding of the stud member

A44D 2201/16

- with opening of the fastener by rotation of the stud member

A44D 2201/30

- Socket member

A44D 2201/32

- with one or more springs retaining the stud member

A44D 2201/34

- with one or more push-buttons acting perpendicularly to the main plane of the stud member

A44D 2201/36

- with two or more push-buttons

A44D 2201/38

- with one or more push-buttons acting parallel to the main plane of the stud member

A44D 2201/40

- with two or more push-buttons

A44D 2201/50

- Button-type snap fasteners

A44D 2203/00**Fastening by use of magnets****A44D 2205/00****Fastening by use of touch and close elements****A44D 2211/00****Accessories for fastening means**

A44D 2211/02

- Sliding sleeve covering the fastened extremities
