

CPC COOPERATIVE PATENT CLASSIFICATION

G12B CONSTRUCTIONAL DETAILS OF INSTRUMENTS, OR COMPARABLE DETAILS OF OTHER APPARATUS, NOT OTHERWISE PROVIDED FOR

NOTES

1. This subclass covers only details which are not restricted to measuring instruments or to any other apparatus covered by a single class.
2. This subclass does not cover:
 - details covered by any other subclass in section [A](#), [F](#), [G](#) or [H](#). In particular, details restricted to the measuring instruments are covered by the relevant subclasses of class [G01](#), e.g. [G01D](#);
 - constructional details restricted to electric apparatus, e.g. casings, screenings, which are covered by subclass [H05K](#) or the relevant subclass in section [H](#).
3. Attention is drawn to the Notes following the title of section [G](#), especially as regards to the definition of the term "measuring" in Note (2) following the title of class [G01](#).

1/00	Sensitive elements capable of producing movement or displacement for purposes not limited to measurement; Associated transmission mechanisms therefor	15/00	Cooling (by refrigeration, e.g. circulation of refrigerated fluid, F25D ; heat-exchange or heat-transfer details of general application F28F)
1/02	• Compound strips or plates, e.g. bimetallic	15/02	• by closed-cycle fluid-circulating systems
1/04	• Hollow bodies having parts which are deformable or displaceable under pressure, e.g. Bourdon tube, bellows (bellows in general F16J 3/00)	15/04	• by currents of fluid, e.g. air, in open cycle
		15/06	• by contact with heat-absorbing or radiating masses, e.g. heat-sink
3/00	Details of movements not otherwise provided for (damping of shock or vibrations in general F16F; avoiding out-of-balance forces F16F 15/00; testing balance G01M)	17/00	Screening (insulation or other protection of buildings E04B ; emergency protection of apparatus in general F16P 7/00 ; in connection with acoustic waves G10K 11/00 ; in connection with nuclear radiation G21F)
3/02	• Caging of movements, i.e. locking of movements when not in use		NOTE
3/04	• Suspensions (bearings F16C)		This group <u>covers</u> :
3/06	• Reducing effects of friction, e.g. by vibration (by lubrication F16N)		– the protection of instruments or other apparatus from external radiation or other influences;
3/08	• Damping of movements, e.g. to promote rapid non-oscillatory movement to a final reading		– the prevention of the emission of undesirable radiation or other influences by instruments or other apparatus.
3/10	• . . using eddy currents		
5/00	Adjusting position or attitude, e.g. level, of instruments or other apparatus, or of parts thereof (levels <i>per se</i> G01C 9/00); Compensating for the effects of tilting or acceleration, e.g. for optical apparatus	17/02	• from electric or magnetic fields, e.g. radio waves
		17/04	• from visible, ultra-violet, or infra-red light (screening of lighting devices F21V ; optical filters G02B 5/20)
7/00	Compensating for the effects of temperature (by cooling G12B 15/00)	17/06	• from heat (G12B 17/04 takes precedence; cooling G12B 15/00)
9/00	Housing or supporting of instruments or other apparatus	17/08	• from influences producing mechanical damage, e.g. caused by blast, by external objects, by person (G12B 17/02 - G12B 17/06 take precedence)
9/02	• Casings; Housings; Cabinets (sealing arrangements for transmission members F16J , particularly F16J 15/50)		
9/04	• . . Details, e.g. cover		
9/06	• . . . Metal casings		
9/08	• Supports; Devices for carrying		
9/10	• . . Instruments boards; Panels; Desks; Racks		
11/00	Indicating elements; Illumination thereof		
11/02	• Scales; Dials		
11/04	• Pointers; Setting-mechanisms therefor		
13/00	Calibrating of instruments and apparatus (calibrating of measuring instruments G01)
