## B PERFORMING OPERATIONS; TRANSPORTING (NOTES omitted)

### SHAPING

## B23 MACHINE TOOLS; METAL-WORKING NOT OTHERWISE PROVIDED FOR (NOTES omitted)

## B23P OTHER WORKING OF METAL; COMBINED OPERATIONS; UNIVERSAL MACHINE TOOLS (arrangements for copying or controlling [B23Q](#))

### NOTES

1. This subclass covers:
  - combinations of work-modifying operations covered by different subclasses of classes [B21](#) - [B24](#);
  - combinations of metal-working operations with non-mechanical treatments of metal not provided for elsewhere, for example in [C21D](#), [C22C](#), [C22F](#) or [C23](#).
2. This subclass does not cover
  - non-mechanical operations on non-metallic materials unless such operations are specially mentioned in this subclass;
  - subsidiary operations performed in conjunction with main operations covered by a single subclass, e.g. assembling of parts as an essential feature of a following metal-working operation, since they are not regarded as operations *per se*.
3. Attention is drawn to the Notes following the title of class [B23](#).

### WARNING
