

ECLA**EUROPEAN CLASSIFICATION****D04H**

MAKING TEXTILE FABRICS, e.g. FROM FIBRES OR FILAMENTARY MATERIAL (weaving D03; knitting D04B; braiding [N: and lace-making] D04C; net-making [N: and making knotted carpets] D04G; sewing D05B; tufting D05C, [N: e.g. D05C15/04]; finishing non-woven fabrics D06); **FABRICS MADE BY SUCH PROCESSES OR APPARATUS, e.g. FELTS, NON-WOVEN FABRICS; COTTON-WOOL; WADDING** [N: Non-woven fabrics from staple fibres, filaments or yarns, bonded with at least one web-like material during their consolidation] (non-woven fabrics having an intermediate or external layer of a different kind, e.g. of woven fabric, B32B; [N: manufacturing hats A42C; filtering material B01D39/00; making board or the like from wood fibre B27N; producing shaped articles from mixtures containing fibres B28B1/52; making layered products from solid layers, at least one of which contains synthetic resin as an essential component B32B27/00; making or treating glass wool and mineral wool C03B37/00; compounding ingredients used as fillers for mortars and the like C04B14/38, C04B16/06, C04B20/00F; sintering plastics particles C08J9/24; manufacturing by extrusion of synthetic filaments and fibres in general D01D; paper D21C to D21H; making shaped articles from liquid suspensions of cellulose fibres D21J])

[N: **WARNING** [N1104]

1. Documents of the complete subclass D04H including all subgroups are in the process of being reorganised to the new groups corresponding to the IPC 2012.01 classification scheme defined below.

]

Notes

1. In this subclass, the following expression is used with the meaning indicated:

- "non-woven fabrics" means fabrics formed wholly or partly of textile material by processes comprising operations other than the weaving, knitting, braiding, lacing, or knotting of yarns, threads, or filaments for which provision is made in other subclasses of Section D. This expression includes felts, cotton-wool, and wadding.

2. In this subclass:

- some of the non-woven fabrics can also be regarded as "layered products" within the meaning of subclass B32B, and further classification in that subclass should be considered in accordance with the notes thereto;
- in cases where the making of non-woven fabrics involves the use of particular chemical compounds or compositions, e.g. for treating or bonding fibres, filaments, or yarns, further classification in other appropriate subclasses should also be considered.

3. By varying the proportions of fibres or threads, and the chemical compounds or compositions, the final products may be given the appearance of paper, cardboard, leather or the like.

[N: **Note** [N1104]

In this subclass, a number of groups, e.g. [D04H1/067](#), correspond to IPC2012.01]
