Additional activities – national patent applications/patents***:

GB 000, GB 001, GB 002,...

* This list acts as a guide only and may on no account serve as a guarantee for admission. Important is a wide range of activities.

** Activities carried out within the framework of a general authorisation or a signed single authorisation can be taken into consideration. Proceedings signed for by a professional representative cannot be taken into consideration.

***Activities pertaining to national patents and patent applications will also be considered but cannot replace activity before the EPO. The main extent of activities must be carried out in connection with European patents and patent applications.
