IP5 Global Dossier

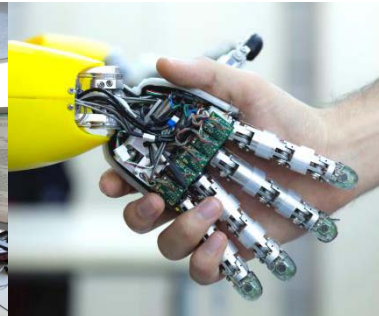

Launching EPO-SIPO's Global Dossier e-mail alerting

Kevin DOUGLAS

Principal Director, Information Management

IP5 Industry Meeting – New Orleans – June 2018

IP5 Global Dossier "5 priorities": Alerting

Alerting – EPO led

Provide timely notification to users on file wrapper changes or status to all IP5 family members of an application

Launch of IP5 Global Dossier "RSS Alerting" – June 2017

-  EPO and SIPO have developed "RSS feeds" for each File Wrapper
-  EPO delivers first RSS for IP5 "Family"
-  Provides Alert function for IP5 "Family" (EPO+SIPO)

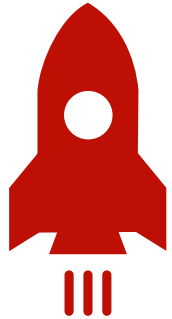

The screenshot displays the European Patent Register interface. At the top, the logo of the European Patent Office (EPO) is visible, along with the text 'European Patent Register' and language options (Deutsch, English, Français, Contact). Below the header, there are navigation tabs for 'Smart search', 'Advanced search', and 'Help'. The main content area shows a search result for 'EP Patent family' with a 'Refine search' button and a 'Type' dropdown menu. A red box highlights an RSS icon and the text 'RSS: family dossiers' and 'RSS: Subscribe to this feed (changes in family member dossiers)'. A 'Subscribe to this Feed' dialog box is open, showing the following details:

- Subscribe to this Feed**
- When you subscribe to a feed, it is automatically added to the Favorites Center and kept up to date.
- Name: following applications: CN201080001147 EP10741095
- Create in: RSS feeds for GD (dropdown menu) [New folder]
- Add to Favorites Bar
- [What is a Feed?] [Subscribe] [Cancel]

The background of the dialog box shows a list of patent entries, including 'EP10741095: Refund of f' and 'EP10741095: Final instructions in case of withdrawal of application'.

E-Mail Alert EPO+SIPO Launch

- A natural extension of the RSS feed based alert
- Preferred by most users compared to RSS
- Based on RSS feeds: mail triggered from the RSS feeds.

Alerting – next steps

EPO launched **email "IP5 family"** Alerting (EPO+SIPO)

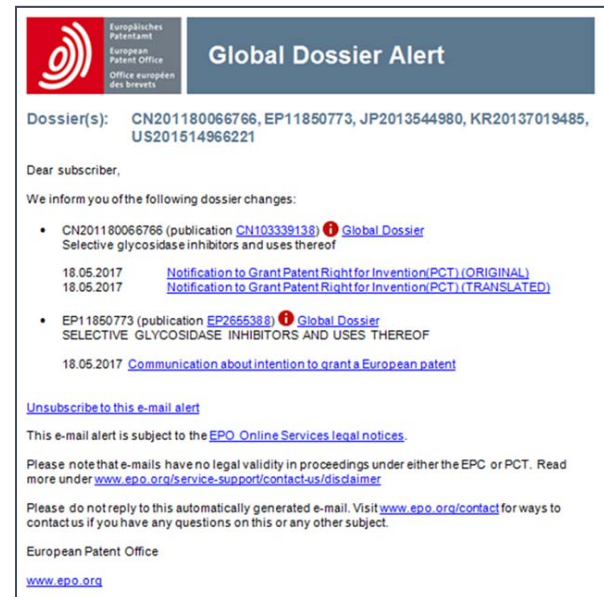

Other Offices to implement their RSS feed for their file wrapper data: **JPO (May 2019), KIPO and USPTO (In discussion).**

Every Office to develop own "IP5 family" Alerting using RSS feeds

IP5 Industry "Patent Management Systems" can integrate RSS feeds
