

# Future of IP5 (IP5 Industry)

*A Presentation of Industry IP5*

*June 12, 2019*

*Industry IP5 Meeting with IP5 Heads of Offices*

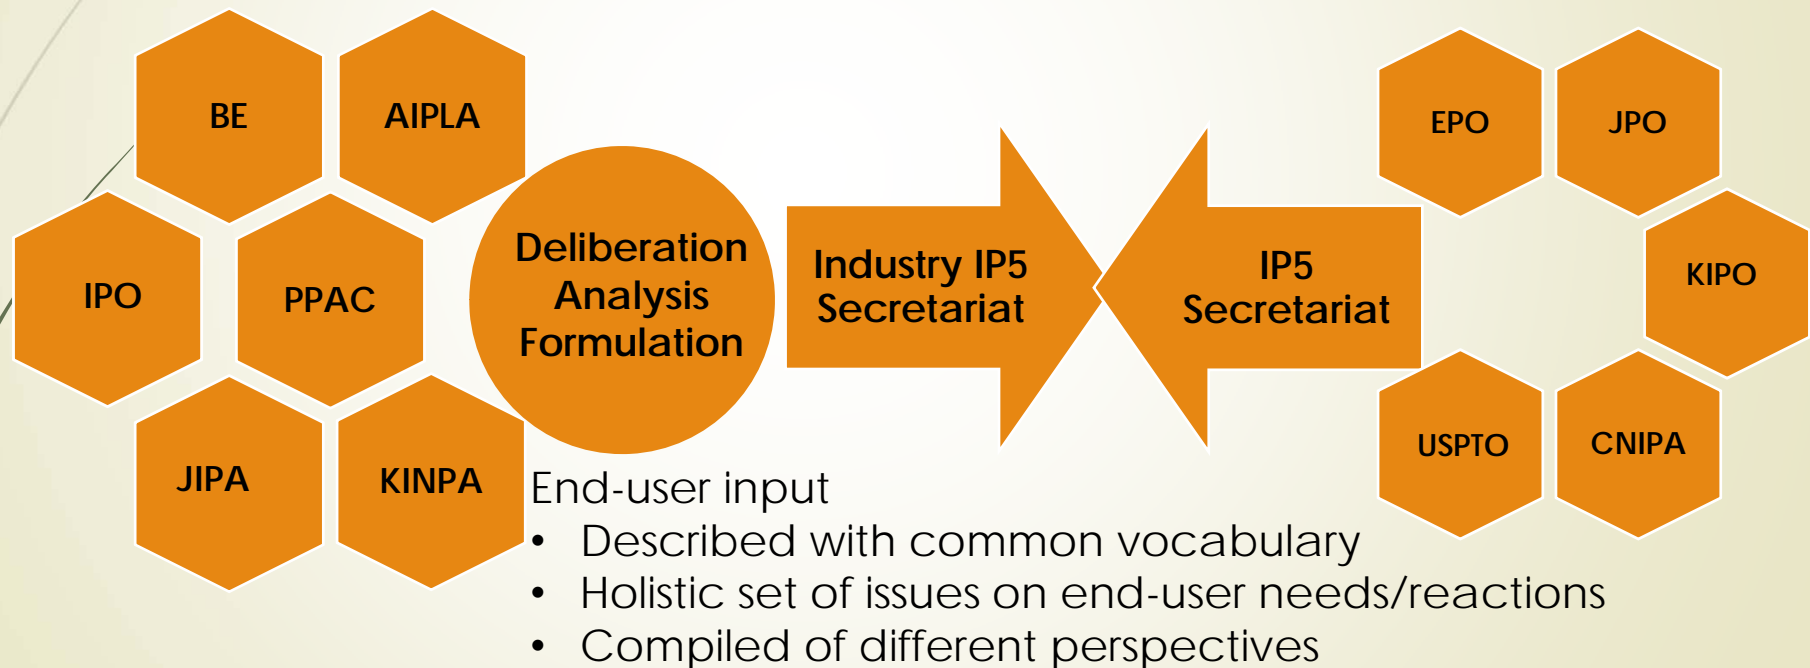

*Incheon, South Korea*

# Industry IP5 as a Unit

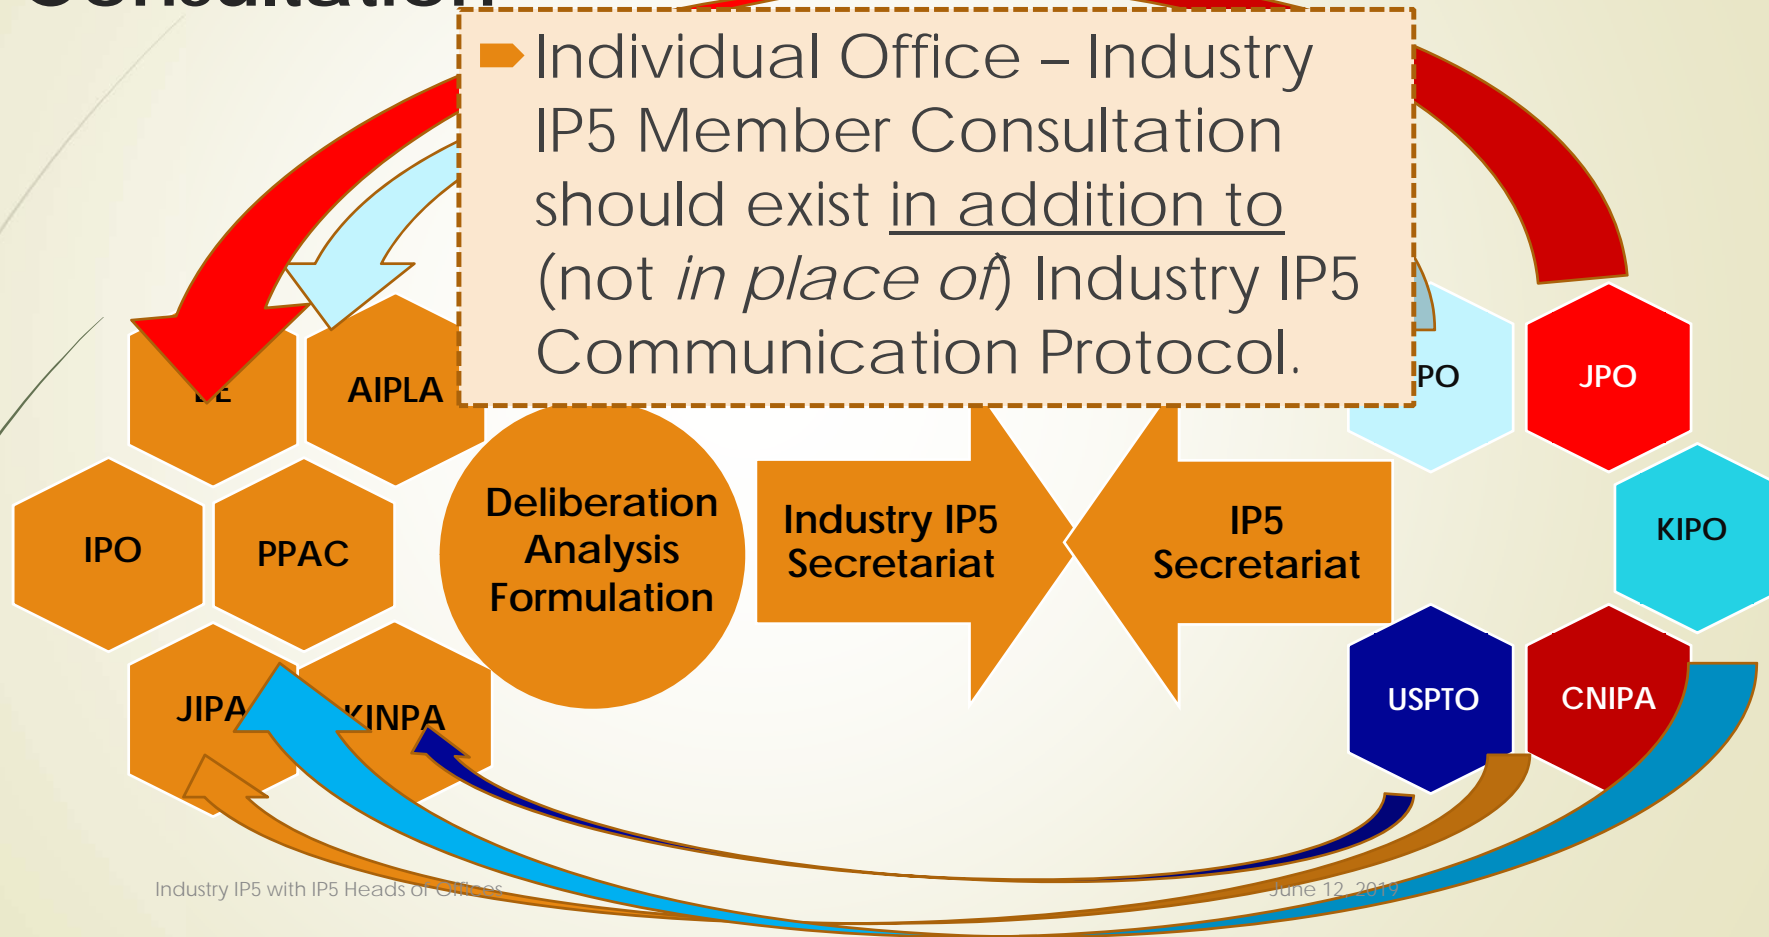

- ▶ Industry IP5 was formed to provide end-user input to the IP5 Offices
- ▶ Deliberations and communication among Industry IP5 members are designed to:
  - ▶ facilitate mutual understanding of each other's perspectives
  - ▶ foster formulation of a common vocabulary to identify a holistic set of issues and end-user needs/reactions
  - ▶ explore possible solutions to address end-user needs
  - ▶ enable communication to the IP5 Offices a compiled list of end-user needs and possible solutions

# Historically Followed Industry IP5 Communication Protocol

- Historically, Industry IP5 communicates, as a unit, with IP5 Offices

# Individual Office - Industry IP5 Member Consultation

# Individual Consultations between Office and Industry IP5 Members

- Each of the Industry IP5 members have opportunities to engage in dialogue, not only with the Office within the same country or region, but also other IP5 Offices.

## Examples from 2019 – Opportunities for Industry IP5 to Consult, Coordinate and Respond as a Unit

- ▶ New PHEP Topics Questionnaire
- ▶ Suggestions for strategic topics for meeting of Industry IP5 and IP5 Heads of Offices

# Proposed Next Steps

- ▶ Maintain the principle that the Industry IP5 should communicate as a unit with the IP5 Offices
- ▶ Provide sufficient notice and an opportunity for the Industry IP5 to communicate and deliberate within itself
- ▶ Industry IP5 confirms that its communication protocol is Industry IP5 secretariat to IP5 secretariat
- ▶ IP5 is requested to re-confirm it will follow this communication protocol
