Japan Intellectual Property Association

Legal Status(1/2)

IP5 Industry's Comments on CNIPA's Five Questions

1. Exchange in bulk or real time?
 - "real time"
2. Self defined format or ST.27 XML standard?
 - It should be commonly agreed format among IP5 Offices.
3. Original data with mapping table or original data with mapped data?
 - On an OPD screen, it is proposed to have fields showing legal statuses with high level concept. See the next slide.
4. Unified display approach or self-decided display approach?
 - Hopefully, "Unified display approach". The development time and costs would be minimized.
5. Simultaneous implementation of and self-decided implementation plan?
 - "Self-decided implementation plan" in light of No Lock-Step approach.

Legal Status (2/2)

Example of OPD screen to show Legal Status

<input type="checkbox"/>	WO	15348545	JP.9804262.W	1998-09-22	WO.9961134.A1	1999-12-02	-	-	Abandoned
<input type="checkbox"/>	TW	15348545	TW.87116675.A	1998-10-07	TW.422725.B	2001-02-21	-	-	Abandoned

Legal Status on an OPD screen may be expressed in a way of indicating high level concept, such as pending, registered, abandoned. If necessary, detailed status can be investigated in looking at the prosecution history.

Thank you for your attention.
