Improvement on Global Dossier contents

IP5 Industry's Comments on JPO's Questions

1. Priority - What challenge should we resolve preferentially?
 - Proposed priority is the following order, Enriched Citation, English translation, Document data in text format, and Appeal, Trial and Court decision. The first three items would be needed in populating IDS form in USPTO's Inter-Office document sharing project.

2. Other challenge – Are there any other challenges?
 - In the last GDTF, IP5 Industry listed up many improvement items*. Some of them are not listed up in IP5Offices' improvement items, so IP5 Industry proposes that IP5Offices consider to pick up some items from the improvement items of IP5 Industry as other challenges.
