

Recent Updates from SIPO

**IP5 Heads and Industry Meeting
New Orleans, 13 June 2018**

Contents

A vertical map of the New Orleans area is positioned on the left side of the slide. It shows Lake Pontchartrain at the top, the Mississippi River winding through the center, and various highways including I-610, I-10, US-90, and LA-3017. Labels for Metairie, New Orleans, Gretna, and Belle Chasse are visible. A white rectangular box is located at the bottom left corner of the map.

1 Strengthening Intellectual Property Rights Protection

2 Improving Examination Quality and Efficiency

3 Enhancing Intellectual Property Service Capability

1 Strengthening Intellectual Property Rights Protection

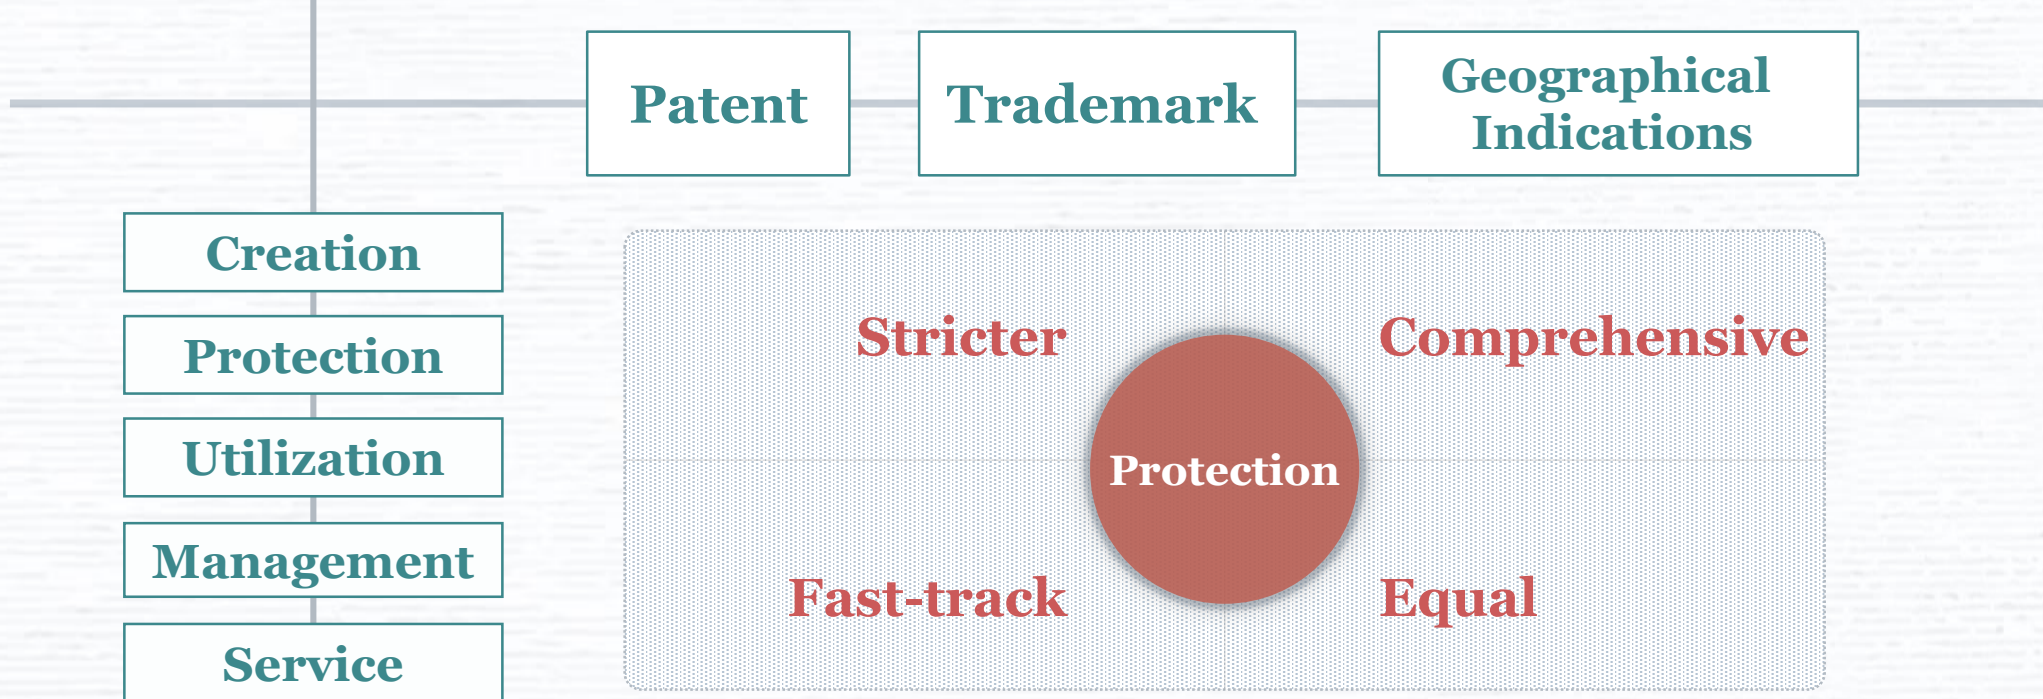

One of 4 measures to expand openness

- Broaden market access
- Create more attractive investment environment
- **Strengthen IPR Protection**
- Expand imports

1 Strengthening Intellectual Property Rights Protection

Reorganization of SIPO

1 Strengthening Intellectual Property Rights Protection

Revising the Patent Law
Punitive compensation to
raise the cost for IP
infringement

marks, certification marks
approved

2 Improving Examination Quality and Efficiency

IT
System

Multiple
Exam Modes

Process
Management

Examiner
recruitment

Improving IT systems

E-filing systems, Intelligent examination system
Enhancing the application of AI and big data technologies

Exploring multiple examination modes

Accelerated examination, circuit examination,
centralized examination

Enhancing process management

Strictly monitor each process in the patent flow

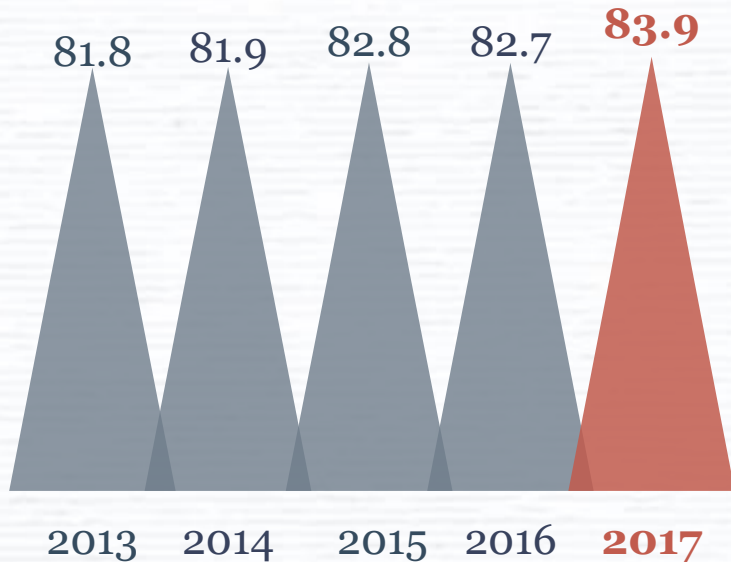

Recruiting examiners

11000 patent examiners in total (including PECCs)
1600 trademark examiners in total (including TECCs)

2 Improving Examination Quality and Efficiency

2013-2017 social satisfaction index on patent examination

Improving Quality Management Mechanism

Double-supervision

Internal: 36 Quality supervisors

External: Complaints platform of examination

Double-evaluation

Internal: Examination quality evaluation group

External: Social satisfaction survey on examination

2 Improving Examination Quality and Efficiency

Revising Guideline for Patent Examination

Business models
Computer programs

Prioritizing examination resources

Internet, intelligent manufacturing
Technique briefings by innovators

Enhancing quality of application at PCT international phase

Developing quality assurance regulation of PCT applications

Improving Quality in key areas

3 Enhancing Intellectual Property Service Capability

Establishing information platforms for users and the public
