AIPLA

- Industry considers the NET/AI issue to be very important and thanks the Offices for their efforts in producing the Roadmap

- Industry supports the Roadmap and looks forward to the benefits and efficiencies that will be obtained from its implementation

- An Industry AI Task Force (IAITF) has been established and has met to discuss feedback on the Roadmap

- Industry and IAITF will be pleased to continue to contribute to implementation of the Roadmap from the user side

- Cooperation opportunities seen by Industry as most promising:
  - Machine translations
  - Comparative studies & guidelines relating to standards of AI-related inventions
