

IP5 Collaborative Search & Examination Pilot

March 4th, 2022

KINPA 한국지식재산협회
Korea Intellectual Property Association

Each Associations' Feedback

AIPLA&IPO

CS&E can deliver real value
Regarding further evaluation, some questions to be answered

BE & KINPA

Supports IP5 Offices' continued work on the additional 1 yr evaluation phase to fully evaluate pros and cons through sufficient statistics from user's viewpoint

JIPA & PPAC

Detailed analysis report would be appreciated for users to consider benefits (e.g. trends of CS&E result by IPC or main ISA)

Common Response

- ✓ IP5 Industry **supports 1yr extension of CS&E evaluation** and expects **detailed evaluation report** or data for review on users' benefits.
- ✓ **The cost would be a large factor** in the willingness to engage in CS&E participation.
(e.g. ISR search fee or reduction on examination fee during the national phase)

THANK YOU
