

## Chapter 6

### OTHER WORK

This brief chapter contains statistics on other work done by the Four Offices, such as search or granting of intellectual property protection, that are not common to all Four Offices. The data presented below are additional to the information already presented earlier in this report.

Other work includes applications for plant patents (USPTO); reissue patents (USPTO); applications for patents other than those for inventions: utility models (JPO and KIPO), designs and trademarks (JPO, KIPO and USPTO); and searches on behalf of national Offices as well as searches for third parties (EPO).

The numbers of requests received for these types of other work are shown for 2008 and 2009 in Table 6.
