

How to filter result sets yourself

"Most recent inventions" and "Full result set" explained

The number of results in a result set can vary drastically, depending on the specifics of a query. For our [Clean energy queries](#) that produce a larger number of results, you therefore have the option to view only the **most recent inventions**, as well as the **full result set**.

The time period for the most recent inventions is indicated at the top of the Espacenet results page: see the time-filter information outlined red in the instructions below. For full details of how to use all available filters on Espacenet, please see the [Espacenet help menu](#).

The screenshot shows the Espacenet search interface. At the top, the search query is: `(cl = "F03D13/22" OR cl = "E02D27/42/low") AND ((cl = "F03D13/25" OR (cl = "F03D/low" AN`. Below the search bar, there are navigation tabs: My Espacenet, Help, Classification search, Results, Advanced search, Filters, and Popup tips. The Results tab is active. The page shows 1 010 results found. A filter for "Publication date (publication)" is applied, with the date range "2021-01-01 — 2022-12-31" highlighted in a red box. A red arrow points to a red "x" icon next to the filter tag, indicating how to remove the filter. The first result is "1. Floating Fish Cage For Offshore Wind Turbine" with details: KR20210058213A • 2021-05-24 • NAT UNIV KUNSAN IACF [KR]. The earliest priority is 2019-11-13 and the earliest publication is 2021-05-24. The second result is "2. Offshore universal fan power generation system" with details: CN113738590A • 2021-12-03 • SHANGHAI ELECTRIC WIND POWER GROUP CO LTD. The earliest priority is 2021-09-07 and the earliest publication is 2021-12-03.

1 If you would like to **remove the time-filter**, just click on the **red "x"** in the filter-tag, as indicated by the arrow.

1. THE NEO INSTALLATION SYSTEM OF OFFSHORE WIND TURBINES
KR20130110949A • 2013-10-10 • YUEKCHUN CONSTRUCTION CO LTD [KR]
Earliest priority: 2012-03-30 • Earliest publication: 2013-10-10
...PURPOSE: A neo-offshore wind power generator installation system is manufactured at low costs and conveniently maintained and managed as... and installing the tower, the guard barge, wind power generating blades, and various kinds of generating devices; transferring the wind power generator... capable of maintaining buoyancy; (CC) Third

2. THE ESTABLISHMENT SYSTEM OF THE OFFSHORE WIND TURBINES WHICH IS COMBI...
KR20130126826A • 2013-11-21 • YUEKCHUN CONSTRUCTION CO LTD [KR]
Earliest priority: 2012-04-30 • Earliest publication: 2013-11-21
...The present invention relates to a system for installing an offshore wind power generator for generating power. The invention is to install a wind power generator at shore and to convert wind into energy sources. The invention is a technology... the wind power generator with a simple structure and short construction period at low cost and the wind

2 If you would like to apply your own time-filter or any other filter, switch on the "Filters" toggle.

3 To apply your own time-filter, select "Publication date (publication)" ...

The screenshot shows the Espacenet search results page. The search query is `(cl = "F03D13/22" OR cl = "E02D27/42/low") AND ((cl = "F03D13/25" OR (cl = "F03D/low" AN`. The 'Filters' tab is active. In the left sidebar, the 'Publication' filter is expanded, and 'Publication date (publication)' is selected and highlighted with a red box. A red arrow points to this selection. The main content area shows '3 015 results found' and a list of search results with their titles, publication numbers, dates, and earliest priority/publication dates.

... enter your desired time-filter and select "Apply".

The screenshot shows the same Espacenet search results page, but with a time filter applied. The 'Publication date (publication)' filter is expanded, and a date range from '1973-01-01' to '2022-12-31' is entered. A red box highlights the date range input. Below the input is a line graph showing 'Publications per year' (left y-axis, 0-800) and 'Publications cumulative' (right y-axis, 0-6K) from 1974 to 2022. The graph shows a sharp increase in publications starting around 2004. A red box highlights the 'Apply' button at the bottom of the filter panel, with a red arrow pointing to it. The main content area shows '3 015 results found' and the same list of search results as in the previous screenshot.
