Will my requested changes be recorded immediately and displayed in my representative profile?

Changes relating to the details of your entry on the list (i.e., name, nationality, place of business/employment) require the approval of the EPO. Changes to your telecommunication data will be changed with immediate effect. The same applies to your data protection settings. However, in case of a combined change (e.g. change of address AND phone number) both will be submitted for approval.

What happens if I change Preferred Language in the Representative profile?

“Preferred Language” means that your request and all further correspondence with the EPO on this matter will be in this language. You are advised to first request a change to Preferred Language separately prior to submitting another change request.

The request to change my name or nationality requires submission of evidence. What kind of document must I upload?

If you change your name or nationality, you must upload a valid identity document. Such document can be a copy of your passport or ID card.

Can I upload documents in a format other than PDF?

No. You can only upload documents in PDF format.

Am I required to fill in my telecommunication details, such as phone number, email address or website?

No. Phone and fax numbers, email address and website (URL) are optional. Upon your consent, these will be published in the searchable database of professional representatives on the EPO website. The fax number is not used for the correspondence with the EPO.

The system currently allows you to enter more than one, but it is recommended to fill in only one per item. Additional items will neither be used by the EPO nor are they published in the searchable database on the EPO website.
